

Corporate Actions Adaptation Plan

Euronext Securities Porto

Activity	Corporate Actions
Plan submitted by	Euronext Securities Porto
NSG	Portugal
Date	October 2022

Background

The Adaptation Plan provides information on the changes which will be implemented to meet the SCoRE Standards for Corporate Actions which form part of the Single Collateral Management Rulebook for Europe (SCoRE). Full details of the Corporate Actions Standards can be found on the ECB website.

The document is structured as follows: Section 1 (Cover Letter) provides a highlevel summary of the changes in order to implement the SCoRE Standards. Section 2 (Adaptation Plan Table) then provides a more detailed overview per Standard covering a feasibility assessment and the implementation milestones.

1 Cover Letter

Regarding Corporate Actions there are some adaptations required, namely:

- Standard 1 (Harmonised business process and workflows per CA event implementation of ISO 20022 messages; implementation of Movement Preliminary Advice/Cancellation and CA Event Processing Status Advice; implementation of Reversals);

- Standard 2 (Provision of data necessary for calculation of proceeds for the CA events currently not available for the CA events to be implemented);

- Standard 3 (Consistency of information provided by Issuer CSDs, Investor CSDs & Custodians for the CA events currently not available for the CA events to be implemented);

- Standard 4 (Rounding rules for cash payments);

- Standard 8 (Cash and security movements must be executed simultaneously, using the T2S night-time settlement (NTS) functionality);

- Standard 9 (Notification of processing status);

- Standard 10 (BIDS and EXOF to be implemented);
- Standard 11 (Availability of default options, if necessary, for the corporate actions with options not yet implemented BIDS and EXOF);
- Standard 13 (Reversal of CA movements);
- Standard 15 (ISO 20022 messages for corporate actions).

With reference to non-debt securities, it should be noted that the related Milestones Table included in the document, aiming by November 2025 for implementation, is still in its preliminary phase and subject to further review and refinement in the next months.

The Milestones Table for non-debt securities should also be considered for the other standards when applicable to non-debt securities.

	Rounding rule no. 1	For cash payments, the cash amount to be paid is to be rounded down to the number of decimals permissible in the payment currency (i.e. to 2 decimals in case of EUR payments).Accordingly, and as an example, a cash amount of EUR 2.556 should be rounded down to EUR 2.55	Adaptation Required	For cash payments, the amount to be paid needs to be rounded down to the number of decimals permissible in the currency, in case the next decimal number is below 5.	N/A				
Addition of Addition	Rounding rule no. 2	For securities movements, the securities amount should be rounded down to the nearest full unit ¹ . The Minimum Settlement Unit (MSU) ² of the security shall determine whether the nearest full unit is a whole number (for example 1) or another number ³ (for example 1.1).	Implemented						

¹ For equities, the rounding-down applies on (I)CSD level for the total position held for one (I)CSD participant and not per share. Accordingly, an entitlement to receive 9.33 shares would be rounded down to 9 i.e. the nearest whole number.

² The MSU should be determined in accordance with the guidance contained in question 4.2 of the T2S Corporate Actions Standards FAQ. ³ Investment fund units may contain up to 6 decimals.

Rounding rule r 3	o. For the calculation of cash payment amounts or securities movement amounts relating to a specific securities account, the ratio applicable to the entire issue should be applied to the total holding in the parent ISIN on the securities account. (There should be no intermediate step whereby a ratio per 1,000 nominal is calculated, and then applied).	Implemented					
Rounding rule r 4	o. The ratio specified by the Issuer CSD in the event notification should be passed on in its entirety in the event notification sent by all Account Servicers and Custodians in the custody chain. (There should be no rounding up, or rounding down, or truncation, of the ratio).	Implemented

	If a Corporate Action cannot be processed on the previously announced Payment Date in accordance with the timelines specified in Standard 8, Issuers and their respective agents shall be responsible for providing information to the Issuer CSD on the reasons for the delay in the processing of the Corporate Action. Upon receipt of the information from the issuers and their agents, the issuer CSD must send a notification message containing this information to its participants as early as possible, but no later than 12:15 on the payment date for European currencies and 16:45 on the payment date for non-European currencies (Issuer CSD time). The issuer CSD must also notify its participants of any issues at CSD level which impact the payment of CA proceeds as soon as possible. Intermediaries shall pass on the notification message through the custody chain to ensure all impacted parties are informed of the delay.		Adaptation Required	Issuer or Issuer Agent should always inform Euronext Securities Porto about the reason for the delay/cancellation of a CA event. Euronext Securities Porto will inform the Account Owners about: - any delay as soon as possible based on information received from the Issuer or Issuer Agent; - any issues. Intermediaries shall pass on the notification message through the custody chain.
